

# Emergency Oxygen Kit

Easy-to-use solution for a quick emergency response

**O<sub>2</sub> KIT** is a compact resuscitation kit specifically designed to provide a quick emergency response and to **meet the requirements set by dental associations across Canada<sup>1</sup>**, which specify that a portable emergency oxygen solution to provide resuscitative ventilation must be readily available on site.

Featuring an EZ-OX Plus™ delivery system made of an integrated pressure regulator, flowmeter and oxygen cylinder - **O<sub>2</sub> KIT** is highly portable and eliminates the need for bulky regulators and carts with its intuitive, easy-to-use emergency response design, offering a safe, reliable and simple emergency oxygen solution.

## Key features

- **Cost effective** - All-in-one package eliminates the need to purchase a regulator, flowmeter, crash cart and individual masks.
- **Safe** - Protective cap over regulator and flowmeter with ergonomic handle provides higher unit safety and reliability.
- **Efficient** - Quick patient set-up time and simple training increases efficiency and can be used by nearly all personnel.
- **Convenient** - Easy to carry, the accessories storage bag for clinical masks can be easily reached in an emergency situation.
- **Reliable** - Simplifies caregiving by showing the pressure remaining information to avoid running out of portable oxygen.

## Be ready

Dental associations in Canada understand the risks associated with breathing emergencies in dental practices and their requirements have evolved over recent years.

Our portable **O<sub>2</sub> KIT** emergency oxygen solution with its integrated cylinder valve and innovative, easy-to-use features is **specifically designed to help you stay compliant** with the latest dental association requirements for on-site emergency oxygen.

## The **O<sub>2</sub> KIT** comes complete with:

- Full EZ-OX Plus™ Size 5 (E) Oxygen Cylinder with Integrated Pressure Regulator and Flowmeter PN: OXM5EZOX P
- Manual Resuscitation Bag Valve Mask (BVM) PN: 520211000EA
- Adult HC, Partial Non-Rebreathing Oxygen Mask PN: 2101
- Pediatric HC, Partial Non-Rebreathing Oxygen Mask PN: 2201
- Cylinder Accessories Bag PN: O2KITBAG
- Cylinder Shipping Box PN: O2KITBOX
- Maintenance & Delivery
- 1 Oxygen Refill per Year

## Convenient all-in-one package

The **O<sub>2</sub> KIT** is a convenient all-in-one package with a simple all-inclusive pricing offer. Single-use clinical items (masks) can be reordered individually using the product codes listed above.

Air Liquide Healthcare's mission is to support our healthcare customers in their mission to improve lives. We offer a one-stop shop for medical gases (including nitrous oxide) and related accessories for dentists and other specialty medical care practitioners. **Contact us to learn more.**
